Better Cushion Better Protection

Ameson was established in 2006, it is a professional and leading manufacturer in cushion packaging machinery and material with ISO9001:2015, ISO14001.

Ameson owns brands for air cushion MINI AIR, paper cushion PaperEZ, biodegradable film BioAir, foam in place MINI FOAM, etc. All machines and material have certificate with CE, UL, OK-COMPOST, FSC, ROHS, etc.

With headquarters based in Xiamen China, Ameson has so far obtained more than 40 invention patents, 60 utility model patents and 50 national registered trademarks.

With subsidiaries in USA, Guangdong China, Hangzhou China, Ameson also has distributors covering the EU, Japan, South Korea, Southeast Asia, and all over the world.

Thousands of warehouse fulfillments, including Amazon, Alibaba, IBM, etc. are using AMESON protective cushion products and intelligent packaging services every day. We protect at least millions of packages every day.

Mission: To provide customers with more Eco-friendly, safer and simpler protective packaging solutions.  
Vission: To be a national leading brand in cushion packaging industry.

With the love and hope, Ameson people are grateful and give back to the society, we founded the "Charity of Aishi", with specific team to carry out public welfare projects such as "Aishi-Education" and "Aishi-food". We help more than 500 families in need per year.

## MINI AIR PRO 2

Speed 25m/min, provides high packing productivity.

### Features And Benefits

- No belt, less maintenance
- No compressor needed
- No Preheating, start right away
- Speed adjustable
- One button switch to different type (Filler/Wrapper)
- Works for films widths: 200/400/600/800mm

### Technical Specification

- Weight: 9kgs
- Speed: 25m / min
- Power: 240w
- Voltage: AC 110V/220V, 50HZ-60HZ
- Size: L375\*W340\*H390(mm)
- Optional Extensions: Roller Winder, Basket, Overhead Oppor, Underneath-table Basket, Foot pedal

## MINI AIR PRO 3

No air backflow, allows more air, provides better cushioning protection.

It needs to be used with air compressor or air source.

### Features And Benefits

- Intelligent detection, length can be preset
- Sensor built in, adjust temperature automatically
- Speed adjustable
- Well sealing with no air leakage
- Capable with different extensions
- Works JifBag/JifBag Plus/Wrapper/Air column bag(W/O valve)

### Technical Specification

- Weight: 14kgs
- Power: 240w
- Speed: 15m/min
- Voltage: AC 110V-220V, 50HZ-60HZ
- Size: L460\*W340\*H470(mm)

## MINI AIR EASi 2

Compact & Smart, works both filler & wrapper.

### Features And Benefits

- No belt, few maintenance
- Length can be preset
- No preheating, start right away
- Capable with foot switch, arm stand and basket

### Technical Specification

- Weight: 3.85kgs
- Power: 120w
- Speed: 8m/min
- Voltage: AC 110V/220V, 50HZ-60HZ
- Size: L405\*W220\*H195(mm)

## MINI AIR EASi 2S

Lightweight & compact, lower cost.

Adjust Temperature

Adjust Air Volume

Error Warning

### Features And Benefits

- No preheating, one button to start
- Works both air pillow and air bubble
- Compact & Cost Saver
- Temperature & air volume adjustable

### Technical Specification

- Weight: 3kgs
- Power: 72w
- Speed: 4m/min
- Voltage: AC 100V-240V, 50Hz-60Hz
- Size: L405mm\*W220mm\*H195(mm)

## MINI AIR CLASi 2

MINI AIR CLASI, the Classic machine, works both filler and wrapper.

### Features And Benefits

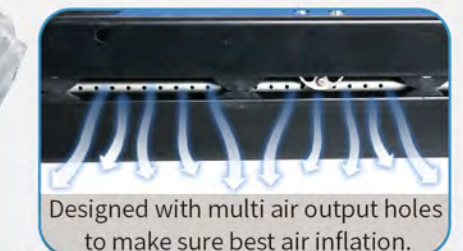

- Speed 12m/min
- Error Warning
- One machine for all types film
- Stop automatically when no film
- Capable with roll winder, overhead hopper, basket

### Technical Specification

- Weight: 5kgs
- Power: 120w
- Speed: 12m/min
- Voltage: AC 220V, 50HZ
- Size: L330\*W310\*H280(mm)

## MINI AIR TUBE 3

MINI AIR TUBE air column bag machine Inflates all kind bags. Automatic inflation saves labor cost. High speed inflation offers high efficiency.

It needs connect to external air source or air compressor.

### Features And Benefits

- Intelligent monitoring, stop when no film
- Length preset, speed adjustable
- No air leakage, better protection
- Application: Q bag, U bag, L bag, Sheet, Wrapper V

### Technical Specification

- Weight: 25.3kgs
- Power: 120w
- Speed: 25m/min
- Voltage: AC 100V-240V, 50HZ-60HZ
- Size: L840\*W390\*H380(mm)

## PaperEZ SmartFill

PaperEZ SmartFill is an automatic paper dispenser. It squeezes and folds fanfold paper to fill parcel boxes. Paper length preset is available to satisfy different packaging sites.

### Specification

Size: L608\*W657\*H1350-1750(mm)

Weight: 37kgs

Power Consumption: 65w

Power: AC110-220V;50-60HZ

Speed: 0-60m/min

Machine height and paper holder adjustable. Angle adjustable.

- Sensor built in, stop when no paper.
- Adjustable speed, length and quantity to improve packing efficiency.

- Easy operation, few maintenance.

### Packing Display

### Application:

○ Auto Parts    ○ Ceramics Artworks    ○ E-commerce    ○ Lamps    ○ Electronics    ○ Industrial Components

## PaperEZ SmartFill M

PaperEZ SmartFill M is a manual paper dispenser. It squeezes and folds fanfold paper to fill parcel boxes. Hand operation, no need electronic power to different packaging sites.

### Specification

Size: L600\*W523\*H735-1035(mm)

Net Weight: 13kgs

Gross Weight: 16.5kgs

Packing Size: L710\*W610\*H425(mm)

Suction cup design to fix machine well.  
Machine is detachable and easy to assemble.

| Gram Weight | Size Per Piece | Weight/Box | Length/Box | Box / Pallet |

## PaperEZ Smart

The paper cushion machine squeezes and folds the paper, makes the paper into the paper cushion with function like filling, wrapping, padding and bracing. The machine has different preset modes to make cushion paper in different length and different layer, for more flexible packaging needs.

- High Precision** Paper cushion length preset with high precision.
- Smart Machine** Smart machine with multi modes.
- High Efficiency** Fast speed to improve efficiency.
- Warehouse Saver** Less material does the same protection.

Optional: Paper Rewinder

**Note:**  
Foot pedal is available under Manual mode.

Works for cushion pad and fill pad.

Angle adjustable; Speed adjustable; Easy operation to satisfy different packaging sites.

3 modes, 7 different program preset and no limitation of paper cushion quantity.

## PaperEZ WrapAuto

PaperEZ WrapAuto is developed to make the honeycomb paper being stretched automatically, the speed can be adjusted freely, two operation modes available, get the finished wrap honeycomb paper directly, make on-site packaging more convenient and efficient.

### Two Operation Modes

Auto mode and foot pedal mode, more convenient and high efficiency.

### Paper Output Automatically

Make the packing more easier and convenient.

### Speed Adjustable

Adjust the speed according request.

Fast cutting to improve efficiency.

Optional: Cutter

Optional: Mounted hanging seat

## SPECIFICATION

Power: AC100-240V

Power Consumption: 50W

MAX Speed: 20m/min

Color: Black & Blue

Weight: 16kg

Size: 650mm x 305mm x 273mm

Rotate the button to adjust the tension.

## PaperEZ WrapManual

PaperEZ WrapManual is a manual dispenser for honeycomb paper roll, has upgrade model to add white paper roll, no electric power needed.

Optional: Support rod for white lining paper.

Adjustable tension for a better control of tightness.

Suction cup design.

Machine runs paper from 300 to 500mm wide.

## PaperEZ Wrap Material

PaperEZ Wrap honeycomb paper processes a pre-cut kraft paper roll into 3D multangular honeycomb units by dispenser, the stacked honeycomb paperlayers has good stability and anti-skid effect, for better void fill and protect the product during delivery. It is a good alternative to the traditional bubble wrap and foam packaging.

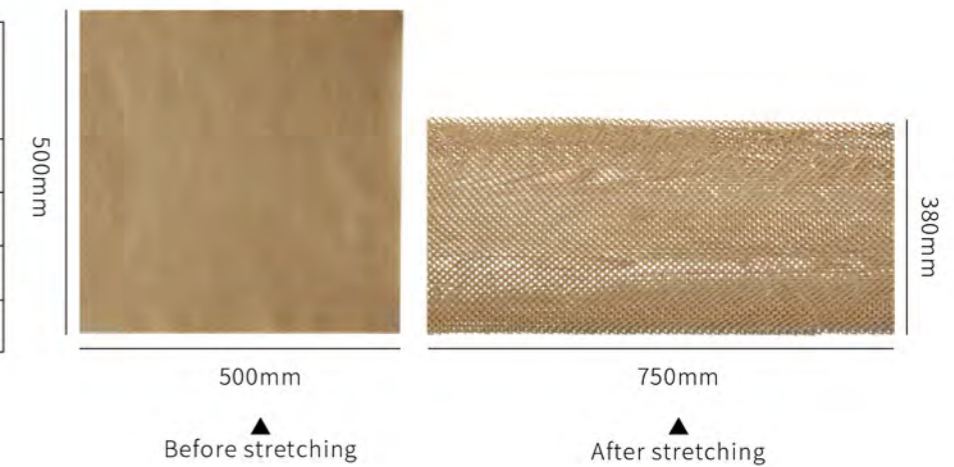

Eco-friendly kraft paper raw material  
100% recyclable and biodegradable,  
provides cushion protect for various products.
